

MATH 3191 Applied Linear Algebra

Instructor: Johnathan Rhyne (pronouns: they/them, others are fine)

Email: johnathan.rhyne@ucdenver.edu

A Little About Me

My Credentials:

- ▶ Undergraduate at NC State (Raleigh NC)
 - ▶ B.S. in Mathematics with minors in Computer Programming & Statistics
- ▶ 5th year PhD student here at CU Denver
 - ▶ M.S. in Applied Mathematics (Spring 2024)

A Little About Me

My Credentials:

- ▶ Undergraduate at NC State (Raleigh NC)
 - ▶ B.S. in Mathematics with minors in Computer Programming & Statistics
- ▶ 5th year PhD student here at CU Denver
 - ▶ M.S. in Applied Mathematics (Spring 2024)

My Research Interests:

- ▶ Numerical Linear Algebra
- ▶ Algorithm Optimization

A Little About Me

My Credentials:

- ▶ Undergraduate at NC State (Raleigh NC)
 - ▶ B.S. in Mathematics with minors in Computer Programming & Statistics
- ▶ 5th year PhD student here at CU Denver
 - ▶ M.S. in Applied Mathematics (Spring 2024)

My Research Interests:

- ▶ Numerical Linear Algebra
- ▶ Algorithm Optimization

Personal Interests:

- ▶ Self hosting web-based services
- ▶ Vintage Story and Magic the Gathering

Grading Scheme

- ▶ Homework 25%
 - ▶ MyOpenMath (12.5% weighted by number of questions)
 - ▶ Written Homework (12.5% weighted equally)
- ▶ 3 Exams worth 20% each (dates on next slide)
- ▶ Python Labs (15% returned via Google Colab)
Remind me to do a demo before we start content!

Exam Dates (Pending Class Cancellations)

1. Exam 1: Wednesday September 23rd
2. Exam 2: Wednesday October 28th
3. Cumulative Final Exam: Week of December 7th Will be announced in Canvas once I know the date

Materials for The Class

Textbooks: OER resources! (They're all free and available now on Canvas)

- ▶ *Interactive Linear Algebra* by Dan Margalit and Joseph Rabinoff
- ▶ *Linear Algebra with Applications* by W. Keith Nicholson
- ▶ *A First Course in Linear Algebra* by Ken Kuttler

Materials for The Class

Textbooks: OER resources! (They're all free and available now on Canvas)

- ▶ *Interactive Linear Algebra* by Dan Margalit and Joseph Rabinoff
- ▶ *Linear Algebra with Applications* by W. Keith Nicholson
- ▶ *A First Course in Linear Algebra* by Ken Kuttler

Homework: Canvas and MyOpenMath (both free)

Materials for The Class

Textbooks: OER resources! (They're all free and available now on Canvas)

- ▶ *Interactive Linear Algebra* by Dan Margalit and Joseph Rabinoff
- ▶ *Linear Algebra with Applications* by W. Keith Nicholson
- ▶ *A First Course in Linear Algebra* by Ken Kuttler

Homework: Canvas and MyOpenMath (both free)

Lecture Materials: posted in Canvas prior to lecture and mostly based on *Interactive Linear Algebra*

Course Format

- ▶ We meet M,W from 2:00–3:15pm here in North 1806
- ▶ Drop-in hours (aka office hours) are open for questions, or you to just say hi! See the syllabus for the times and office number
- ▶ I post lecture slides before the class we cover them, and a typed up version afterwards
- ▶ Homework assignments are posted each week and submitted electronically with MyOpenMath or Canvas

You Got This!

- ▶ I want y'all to succeed
- ▶ Please reach out for help early and often
- ▶ Everyone has the ability to do well
- ▶ This is not a race, but keep moving in the right direction (I am here to help guide you if needed!)
- ▶ Being “good at math” is more on how we react when we get something wrong, not how often we get things right. Learning from mistakes is the most important thing I want for y'all
